1. On 29 November, 14 trucks were observed in the Ohrdruf (M 51/J 15) maneuver area, coming from the direction of Sonneberg and moving toward Eisfeld. * The trucks were loaded with wooden and iron bedsteads and two of them towed field kitchens. At about 6 p.m., 12 trucks towing four artillery pieces of about 37 mm were observed traveling in the same direction. Each truck carried 10 to 15 soldiers.

3. Trucks loaded with tree trunks, moved to the railroad station on 28 November.

4. A local resident said that six rail-type rocket launchers were unloaded at the Ohrdruf railroad station on 24 November and loaded again on 25 November, following a firing practice with live ammunition at the troop training grounds. **

* Comment. The two trucks belonged to the 13th AAA Div of the Eighth Gds Army. They were probably en route to Ohrdruf.

** Comment. The information indicates that further short firing exercises of Eighth Gds Army units may be held at Ohrdruf throughout the winter.
